

My favourite coffee and lunch spot

Description

â€œMy favourite coffee and lunch spot

[Cafe Carberry](#) is just round the corner from where I work, which is how I have discovered this little gem. I go here daily for my filter coffee which is Â£1 to take away up until 11am. Their speciality coffees and herbal teas are great as well. Staff are friendly and quirky and I can honestly say that I look forward to calling in here everyday.

Also do a nice selection of salads, daily specials and homemade traybakes and scones. Really good all rounder for quality [home made food](#). Would recommend to anyone.

Great spot for lunch too, 2 yummy homemade soups to choose from daily with delicious home made wheaten bread, good value and portion sizes too.
